CAREER OBJECTIVE

Motivated Computer Science graduate with strong knowledge of Java, SQL, Cloud Fundamentals, and Software Development. Skilled in problem-solving, analytical thinking, and technology-driven solutions through academic projects and internships. Seeking to contribute to EY's Technology Consulting practice while developing expertise in digital transformation and business technology solutions.

TECHNICAL SKILLS

Programming Languages

Java, Python, C++, JavaScript

Backend Technologies

Spring Boot, Spring MVC, Spring Security
Hibernate, JPA, JDBC, REST APIs

DevOps & Tools

GitHub, Docker (Basic), Postman, Linux, VS Code

Databases

MySQL, Oracle

Core Java

OOP Concepts, Collections Framework
Exception Handling, Multithreading (Basic)

Frontend Technologies

HTML5, CSS3, JavaScript, React.js

Professional Skills

Problem Solving, Analytical Thinking, Communication Skills,
Team Collaboration, Stakeholder Management
Agile Methodology

INTERNSHIP EXPERIENCE

Infosys Springboard Virtual Internship 6.0

AI/Software Developer Intern | Feb 2026 – April 2026

- Developed backend services using Java, Spring Boot, Hibernate, and MySQL.
- Designed and consumed RESTful APIs for seamless frontend-backend communication.
- Implemented JWT-based authentication and security mechanisms.
- Integrated external APIs for real-time data processing and analytics.
- Participated in Agile development practices and collaborative project delivery.
- Performed debugging, testing, and issue resolution to improve application reliability and performance.

PROJECTS

College Administrative System

Java | Spring Boot | Hibernate | JSP | Oracle | REST APIs

- Developed a College Administration System to automate student, attendance, examination, and fee management processes, improving operational efficiency through role-based access and RESTful APIs.

BankBot AI – Intelligent Chatbot for Banking FAQs

Python | Streamlit | NLP

- Developed an AI-powered chatbot using Python and Streamlit to handle banking-related queries.
- Implemented a hybrid system combining FAQ-based retrieval and AI model (Ollama).
- Designed keyword matching and similarity logic to efficiently process and respond to user queries.
- Applied domain-restriction and guardrail mechanisms to ensure secure, relevant, and banking-focused.

EDUCATION

B.Sc. (Computer Science) | CGPA: 9.04

Sangola Mahavidyalaya Sangola, Solapur

2026

HSC (12th) | 65.50%

Sangola Vidyamandir Prashala & Junior College Sangola, Solapur

2023

SSC (10th) | 88.40%

Shridhar Kanya Prashala Nazare, Sangola, Solapur

2021

ACHIEVEMENT

Microsoft Azure Fundamentals (AZ-900)

2026

Scored 82.59% in TCS iON NQT

2025

Certifications in Java, Python, AI and Database Management

2025

Participated in TECHNOZEAL 2K25 Coding Event

2025
